

1. Browse to this webpage:

[Konica Minolta Print Driver Link](#)

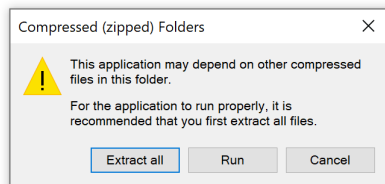

2. Select your driver from the list based on your operating system, for most people that will be the Windows 10 64 bit PCL

3. Click the link for the zip file for your selected driver, it will begin downloading and, in most cases, will open when its completed. If it doesn't open, then navigate to your default downloads folder.
4. Once in the folder, open the file that's labeled "Driver"

Name	Type	Size	Attributes	Progress	Modified
